ABOUT ME

Full Stack & AI Engineer with 2.7+ years' experience building scalable web apps and GPT-powered systems. Skilled in OpenAI, Pinecone, and custom LLM agents for automation, talent matching, and resume generation. Proven in end-to-end delivery, UI/UX, and team leadership.

EDUCATION

Course Full Stack Development

TRYCATCH INSTITUTE

2022 – 2023

Bachelor Of Science in Information Technology

MUMBAI UNIVERSITY

2019 – 2022

SKILLS

Frontend

- React.js,
- Vue.js (2 & 3) Next.js

Backend

- Node.js,
- Express.js, Prisma, Knex.js.

Databases

- PostgreSQL, MySQL,
- MongoDB.

DevOps & Infrastructure

- Nginx,
- CI/CD pipelines, Deployment Automation, Server Monitoring.

AI & Automation

- OpenAI API, GPT Agents, Custom AI Assistants

Other Expertise

- RESTful APIs, System Design, Scalable Architecture, Mentoring, End-to-End Product Ownership

WORK EXPERIENCE

Full Stack Developer

AI TIGER

12/2025 – Present

Integrated advanced AI capabilities for text-to-image, text-to-video, and image-to-video generation using high-quality prompt engineering for production use cases.

- Built agentic pipelines for image-to-video and product-to-video generation with automated decision logic.
- Implemented invoicing systems and integrated secure payment workflows.

Full Stack Developer

Aliff Overseas

10/2024 – 12/2025

Designed and deployed production-grade GPT-based systems including AI counselors and voice-based admission inquiry assistants for B2C and B2B use cases. Integrated OpenAI and Pinecone to enable conversational search, contextual memory, and personalized recommendations.

- Automated lead qualification workflows to reduce counselor workload and improve inquiry-to-admission conversion.
- Led UI/UX direction, conducted market and competitor research, and managed the full product lifecycle from architecture to deployment and optimization.

Jr. Full Stack Dev

SIMPLE DIGITAL

06/2023 – 09/2024

Developing full-stack web applications using Vue.js, Node.js, and SQL with a focus on performance, scalability, and clean architecture.

- Implemented server-side logic, REST API integrations, and efficient database management.
- Collaborated with design and development teams to deliver scalable, maintainable solutions.
